

2026 KHM Golf Events
“Courses that Care - Miles that Matter”

Proceeds from our Golf Events help us provide support for transportation and other critical needs within the community. We are proud to partner with golfers, our community, businesses, local & regional health care providers & family organizations.

KHM “Miles that Matter” Program

*In memory of Krysta Hankee, who passed away suddenly in 2007, shortly after graduating from New York University, the family established the **Krysta Hankee Memorial Fund** which has provided over \$187,100 in scholarships to area students pursuing a higher education.*

The “Miles that Matter” program was later established to distribute WEIS gift cards to provide support and transportation for local families in need.

Since October 2010, the Krysta Hankee Memorial Fund has provided over 4 million miles of transportation.

We partner with businesses, service organizations, and a very caring community. You share the road with hundreds of families traveling in unfamiliar surroundings seeking solutions to critical needs. Many families we support are transporting children receiving specialized medical care.

Please join our efforts to help these families!
